

THINK INSIDE THE ~~BOX~~ CUBE!

Electrocube, Inc. has been delivering quality and performance in their extensive line of capacitors and related products since 1961. Our wide selection of film capacitors, RC networks, snubbers, EMI filters and aluminum foil transformers are designed for use in the commercial, industrial, medical, aerospace and military markets. We acquired the product lines of Seacor which broadened our presence in the passive components industry.

Electrocube's custom design capabilities, modern manufacturing facilities, personalized customer service, excellent quality control/inspection/testing, competitive pricing and on-time delivery are the key elements responsible for Electrocube's continued success as an industry leader. Our products are available through our international network of sales representatives and stocking distributors. We are ISO9001:2000 and AS9100B:2004 Registered.

CUSTOM FILM CAPACITORS

- custom design services, total engineering support and manufacturing capabilities
- special configurations
- special terminations
- precision
- low ESL
- low ESR
- high current /voltage/ pulse/frequency applications

SEACOR ELECTROLYTIC CAPACITOR BANKS

- superior electrical performance/long life
- terminated using low resistance copper buss strips
- designed for various mounting configurations
- banked to any capacitance value
- from 10 to 20,000 volts
- current up to 1000 amps RMS

SEACOR CAPACITORS

- broad selection of standard designs and features
- engineered to meet numerous requirements
- general purpose and precision
- high voltage
- high pulse
- X-2 suppression
- motor start
- UL, CSA, SEV and VDE approvals

UL LISTED RC NETWORKS

- from single to multiple combination
- single or 3-phase operation
- available in metal cans or epoxy cases
- solid or stranded wire leads with varying lengths and terminations
- commercial and industrial applications
- CE mark available

ALUMINUM AND COPPER FOIL TRANSFORMERS

- 25 VA through 50 KVA power range
- smaller and lighter
- exceptional reliability and efficiency
- commercial and military applications
- FAA Certified Manufacturer
- PMA
- Boeing approved supplier
- AS9100B:2004 Registered

CUSTOM EMI FILTERS

- full custom design, manufacture and testing
- complete inductor winding and filter production facilities
- 0.1 amp to 500 amps
- 1 VDC to 5000 VDC and up to 660 VAC
- frequency up to 1000 Hz
- military and commercial applications
