

# SURFACE MOUNT SPEAKERS

PUI Audio is proud to announce the addition of an even smaller surface mount speaker than our current 15mm. At just 13mm, this new speaker can be used in place of conventional surface mount transducers to add voice or music to any hand-held or small device without sacrificing space. Both speakers offer low profile with a wide frequency range to reproduce a variety of tones at over 85dBa with just 0.7 watts. The tape and reel packaging allows for faster manufacturing than traditional speakers.

### Features include:

- Withstands lead-free profiles up to 260°C
- Tape and reel packaging
- Compact size, low profile
- Wide frequency range

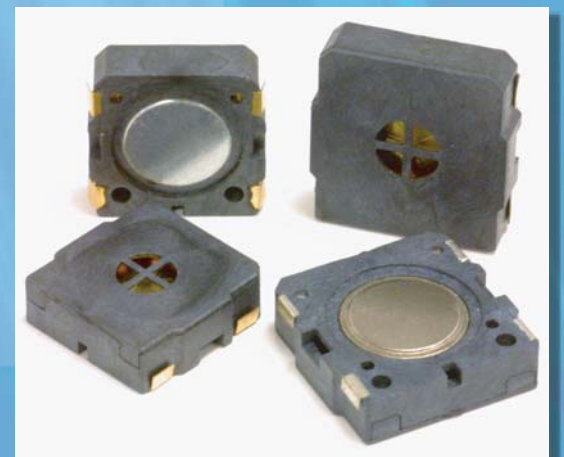

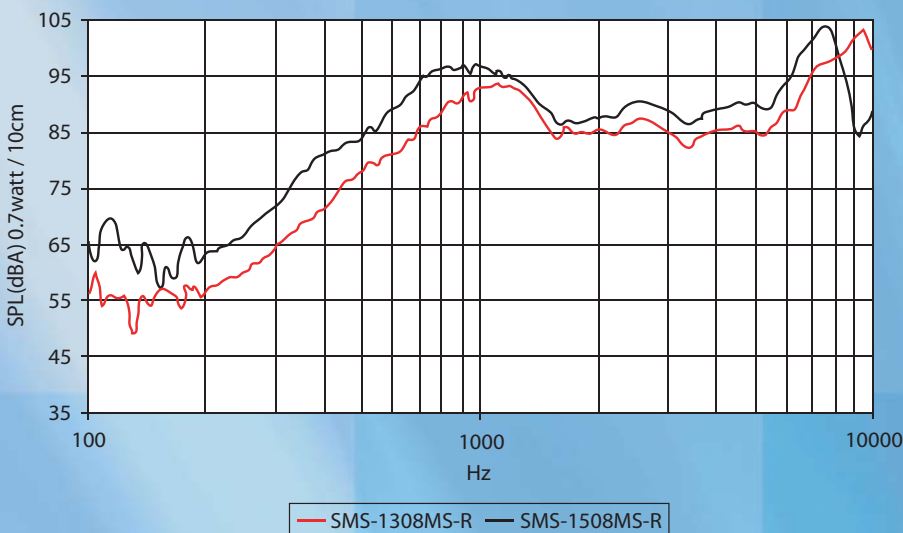

### Potential Applications:

- Hand-held devices
- Card readers
- Scanners
- Video cameras
